

# Risk Illustrations - Investment Details

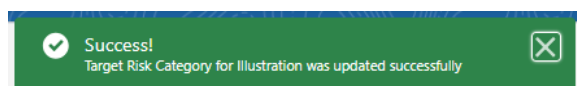

15/04/2025 4:08 pm BST

This article is a continuation of - [Illustrations - Creating an Illustration](#)

Once the Illustration has been created, you can start to complete details of the scenario.

Start by selecting the Target Risk Category:

The screenshot shows the 'Set a Target Risk Category' dialog box in the Synaptic Pathways application. The dialog box is titled 'Set a Target Risk Category' and contains a message: 'The Illustration journey has been upgraded to become the Risk Illustration journey or default Risk Set has changed. In order to provide the enhanced Outcome view you must set a Target Risk Category for this Illustration. Please choose a Target Risk Category below to continue:'. Below the message is a dropdown menu labeled 'Select an Option' with a list of 10 risk categories: 1 - Very Cautious, 2 - Cautious, 3 - Moderately Cautious (Low End), 4 - Moderately Cautious (High End), 5 - Balanced (Low End), 6 - Balanced (High End), 7 - Moderately Adventurous (Low End), 8 - Moderately Adventurous (High End), 9 - Adventurous, and 10 - Very Adventurous. A mouse cursor is pointing at option 4. At the bottom right of the dialog box is a 'Continue' button. In the background, the 'Investment Details' section of the application is visible, showing fields for Term of Investment, Initial Amount, Regular Contribution, Regular Withdrawal, and Contributions.

Complete the Investment details screen:

(These can be revisited later on in the journey)

Once complete, 'Continue to Next Step' on the bottom of the screen. This will take you to Pathway Selection:

For further information on the Pathway Selection screen, see article [Illustration - Pathway Selection](#).
