

# Ex-Ante - Basis of Illustration - Deterministic Forecast

Last Modified on 06/05/2022 12:06 pm BST

The **Deterministic Forecast** tab allows you to review a deterministic graph, showing the **Net Contributions, Overall Return** and **Return Without Fees** over the **Term of Investment**.

**Overall Growth % & Overall Growth £** is also shown above the graph:

Ex-ante Statement
Compliance Details
Report Content

**Review**

Select a wrapper to review the results, complete the capacity for loss statement and add commentary for compliance and reporting.

Mark as reviewed by selecting the checkbox for each item.

**7IM** Platform  
7IM Platform

**Individual Savings Accounts**

Product: ISA (Stocks and Shares)

R.I.Y. 0.46% Final Value £61,734.86

**Self Invested Personal Pension**

Product: 7IM SIPP

R.I.Y. Final Value

**Deterministic Forecast**

COBS recognises the benefits of both deterministic and stochastic forecasts. The linearity of the former is particularly useful for costs and charges analysis, including the exploration of Total Solutions. Cost as revealed by RIY calculations. Growth assumptions for these calculations are provided at a high level by actuaries. Synaptic produces both types of forecast as standard as part of the illustration.

Final Value	£61,734.86	Total Charges	£1,867.80
Overall Growth %	4.54 %	R.I.Y.	0.46%
Platform / Provider	7IM Platform		
Product	ISA (Stocks and Shares)		
Basis	ISA	Type	Individual Savings Accounts

**About**

This stochastic projection has been generated using the Moody's Wealth Scenario Generator to determine the probable outcome of the investment given the parameters provided.
