

Income Analysis - Plans

21/02/2025 11:38 am GMT

This article is a continuation of [Income Analysis - Add Goal Details](#)

The **Plans** screen is where you can include Phased Drawdown (if applicable) manage plans, which includes plan specific investment strategies, growth rates, projected values and charges.

The screenshot displays the 'Income Analysis - Plans' interface. At the top, there is a navigation menu with options like 'Synaptic Pathways', 'Home', 'Paraplanner Access Centre', etc. The main content area is titled 'Income Analysis Research..' and includes a search bar and action buttons like 'Get Illustration', 'Edit', and 'Delete'. Below this, there's a client information section for 'Susanna West' and a 'Phased Drawdown' section with input fields for 'Age' and 'Date'. A 'Fund Value Summary' table is shown at the bottom left, and a 'Manage Plans' button is on the right. A 'What's Shown Here' box provides instructions on including plans in the analysis.

If this is a Phased Drawdown scenario, enter the **Phased Period Ends, Age or Date** and **Phased Period End Age**.

This is a close-up view of the 'Phased Drawdown' section. It features a 'Phased Period Ends' section with 'Age' and 'Date' input fields. Below it is a '* Phased Period End Age' section with an 'Enter Phased Period End /' input field. A '+ Manage Plans' button is located to the right of the input fields. The 'Fund Value Summary' table is also visible at the bottom.

In the example we are using, we will leave **Phased Drawdown** blank. If doing an Phased Drawdown scenario, see article [Income Analysis - Phased Drawdown](#)

If you select PCLS the system will take out the percentage of PCLS specified and remove it from the income calculations.

UFPLS will keep the total plan values invested in the drawdown plan, when income is taken from the drawdown plan 25% of the income withdrawn will be tax free, this will be taken into account when calculating the tax liability.

Phased drawdown allows you to specify the phased period end age, and choose either PCLS or UFPLs for the phased period and remaining term.

For this example, we will select **PCLS**.

You can specify how much PCLS out of the total you would like to remove. The system defaults to the 25% tax-free amount. However, this can be overwritten up or down to suit your clients' needs.

Select whether you would like to use any excess PCLS amount in the calculations.

For e.g. If your client would like to take 15% of their tax free cash, would you like the system to take the remaining 10% into account in the calculations? Select **Yes** if that is the case. If they have already taken some tax-free cash in the past, the client may want 15% but you don't want the 10% to be used in the calculations. Select **No**.
