

# Creating a special deal for Fidelity

Last Modified on 03/08/2023 4:15 pm BST

In Synaptic Pathways, you are able to create special deals for Providers. Provider charging structures can vary and may need to be setup differently to ensure the deal pulls through correctly.

For the Fidelity Platform, you will need to apply your special deal pricing terms under the Platform AMC 2 area. Charges under the individual wrappers will also need to be removed to ensure the figures are not duplicated in the calculations.

Navigate to your deal within **Configuration > Special Deals and Discounts > Special Deals** or create new - [Creating Special Deals](#).

**Note: Pathways has two representations of the Fidelity platform which includes a 'No Investor Fee' version. This should be selected for illustrations where the Investor Fee is waived.**

Select the special deal:

Special Deals and Discounts

Tier Start	Tier End	Rate %	Rate £	Fund Type
£100,000.00	£250,000.00	0.00		All
£250,000.00	£500,000.00	0.00		All
£500,000.00	£1,500,000.00	0.00		All
£1,500,000.00		0.00		All

Edit | Add Row

Edit the provider published charge tiers to apply the special deal you have agreed with the provider.

Change the existing tiers or add and remove new tiers.

Use the 'Revert' Action to return to the default published charge details.

From time to time published charges may be revised or removed by the provider. In the event of a change a warning notification will appear to indicate the special deal needs attention.

Special Deals are applied when an illustration is requested, only 'Active' Deals are applied.

Enter details of the deal.

	Tier Start	Tier End	Rate %	Rate £	Fund Type
1	£0.00	£110,000.00	0.27		All
2	£110,000.00	£270,000.00	0.25		All
3	£270,000.00	£550,000.00	0.24		All
4	£550,000.00	£1,400,000.00	0.20		All

Edit Add Row

Once complete, the individual wrapper AMC's need to be changed to zero to ensure the charge is not applied twice.

Change **GIA/ISA/SIPP/PP/ID AMC** to zero as shown in the screenshots below.

**Note: Fund Types ETF and External3 are specific to Fidelity standard charging structure. You do not need to alter the fund type when applying a zero to the tiers against the individual wrapper AMC.**

## Edit

Charge Tier Name  
**GIA AMC**

Tier Start	Tier End	Rate %	Rate £	Fund Type
			0.25	ETF
			0.25	External3

Select the pen icon next to the rate:

Charge Tier Name
