Can I send research to other users?

Last Modified on 10/01/2024 12:36 pm GMT

You can send your research to another user of the system. This is designed to cover three main scenarios:

Advisers submitting research to a compliance officer.

Paraplanners exchanging work with their advisers.

Communication between members of a research team.

You send research using the **Send** link on the menu bar. This functionality is described at greater length in the section on compliance and collaboration tools.
