

How can I create market research?

Last Modified on 10/01/2024 12:36 pm GMT

Synaptic Research can be used for any number of generic research purposes, as well as for providing advice to clients:

- Build spreadsheet-style grids of data which can be filtered and sorted near-instantly regardless of their size.
 - Compare specific contracts.
 - Generate factsheets for contracts and funds.
 - Create league tables of contracts using any combination of ranking criteria.
 - Reload existing research, use old research as a template for new research etc.
 - Send research electronically to colleagues.
 - Export data to Excel (if your firm has purchased the Export functionality), or generate reports in PDF form.
-
