

# Product and Provider Panels

Last Modified on 08/05/2024 9:39 am BST

All relevant products are available on your account when you first register, unless disabled by the provider. Select **Provider Panel** and the particular product category which will bring up a list of providers and their individual products.

**Product Panel - Protection - Term**  
For vendor Synaptic Webline Admin

The following table show the current LIVE products on Webline.  
You may select a panel of products you wish to offer on your website and for logged on users.  
To enable a product, check the boxes to the right of the product.  
All products highlighted in red have not been set by you, and will adopt default behaviour - term products will quote if not set, other products will NOT quote if not set.  
After making your selection, press the 'UPDATE' button

Initially the majority of providers will be checked as **yes** - select **no** to disable any, then click the **update** button at the bottom of the screen for the changes to take effect.

If you have setup the Webline quotes on your consumer facing website, use the website column to select the products you want available when consumers are doing quotes directly on your website.

If the products have been disabled by the provider, please liaise with the provider directly.
