

Settings

Last Modified on 08/05/2024 9:39 am BST

After we confirm your registration, you may immediately log on to the service using your administrator user name, and set up your company details using the "**Settings**" facility in Webline. In this section, you can set panels of products for the quotes, as well as set the commission levels (by provider and product) if you wish to sacrifice commission.

The screenshot shows the Synaptic Webline interface. At the top, there is a navigation bar with the Synaptic Webline logo on the left and a search bar on the right. Below the navigation bar is a toolbar with the following items: Home, Quote, Apply, Track, Documents, Users, Settings, Agents, and Info. The 'Settings' menu is expanded, showing a list of options. A callout box points to the 'Settings' item in the toolbar, stating: "Select **settings** from the toolbar." Another callout box points to the expanded 'Settings' menu, stating: "The **Settings** menu is displayed on the drop down menu. The following sections will go through each of these areas in turn." The expanded 'Settings' menu is divided into two columns. The left column contains: Vendor Account, Provider Panel, Commission Settings, and Compliance Text. The right column contains: Account options, Subagent Options, System Options, B2c Quote Form, and Quote Form.

Select **settings** from the toolbar.

The **Settings** menu is displayed on the drop down menu.
The following sections will go through each of these areas in turn.
