Click the link 'Reset my Weblin password'

Dear **[Name]**,

We have been requested to reset your Weblin password. If you requested this reset, please follow the details below. If you did not request a password reset you can ignore this email. Your account is still safe.

Click the link below to reset your password on our secure server:

[Reset my Weblin password](#)

Synaptic will never email you and ask you for your password. If you receive a suspicious email with a link, do not click on the link.

Kind regards,
Synaptic Software Ltd.

Complete your new password, making sure it has a minimum of 8 characters, including uppercase, lowercase and at least one number and special character.

Click 'Update' to confirm:
