

Income Analysis - Joint Life - Other Incomes

Last Modified on 01/10/2024 12:21 pm BST

This article is a continuation of [Income Analysis - Joint Life - Income Requirements](#)

The Other Incomes area allows you to complete State Pension information and any other income to include in the analysis. State Pension and Other Incomes can be added for both clients.

State Pension

The screenshot shows the 'Income Analysis Research' interface. At the top, it displays the client name 'Susanna West', description 'Test', and creator 'Amy Paulsen' with a timestamp '30/09/2024, 14:17'. A progress bar indicates the current step is 'Other Incomes'. The main content area is divided into two columns for 'State Pension - Susanna West' and 'State Pension - Sam West'. Each column has a 'Yes/No' toggle for 'Include State Pension in the Calculation', a 'State Pension Age' section with input fields for '*Years' (68), '*Months' (0), and '*Yearly Income' (11502.4), and another 'Yes/No' toggle for 'Include additional State Pension in the Calculation'. A 'What's Shown Here' sidebar on the right provides instructions on including state pension and other income. At the bottom, there are navigation buttons: 'Back', 'Continue to Result Page', and 'Continue to Next Step'.

State Pension is automatically selected for both clients. Values are populated from the Gov.uk website.

These figures can be overridden:

This image shows a close-up of the State Pension input fields for both clients. For 'State Pension - Susanna West', the 'Include State Pension in the Calculation' toggle is set to 'Yes'. The 'State Pension Age' fields are: '*Years' (68), '*Months' (0), and '*Yearly Income' (11502.4). The 'Include additional State Pension in the Calculation' toggle is set to 'No'. The same information is shown for 'State Pension - Sam West'.

Additional state pension can be added:

This image shows a close-up of the State Pension input fields, similar to the previous image, but with a red box highlighting the 'Include additional State Pension in the Calculation' toggle for both clients. In this view, the toggle is set to 'No'.

Complete details of the additional pension. This will be taken into account in the results:
