

Income Analysis - Joint Life - Annuity

Last Modified on 01/10/2024 12:19 pm BST

This article is a continuation of [Income Analysis - Joint Life - Other Incomes](#)

From Projection

An annuity quote will automatically generate for both clients when clicking into the Annuity tab. This is an Indicative quote based on the projection:

The screenshot shows the 'Income Analysis Research' interface. At the top, it displays the client name 'Susanna West', description 'Test Description', and creator 'Amy Paulsen' with the date '01/10/2024, 10:34'. A progress bar indicates the current step is 'Annuity'. Two panels show indicative annuity income: 'Indicative Annuity Income - Susanna West' with a value of £31,440.02 per annum gross, and 'Indicative Annuity Income - Les West' with a value of £12,740.41 per annum gross. Both panels have 'From Projection' selected. An 'Additional Information' box on the right explains that the value is the best available OMO income at that time, which can be overridden with a provider quote.

From Provider Quote

This is the best available Open Market Option annuity income obtained from the panel of annuity providers available.

If not complete, enter both client's smoker status and postcode:

Two panels are shown for 'From Provider Quote'. The left panel is for 'Susanna West' and the right for 'Sam West'. Both panels have 'Include Indicative Annuity Income' checked and 'From Provider Quote' selected. Below this, a text box states: 'This is the best available Open Market Option annuity income obtained from the panel of annuity providers available.' Each panel has a 'Client is a smoker' section with 'Yes' and 'No' radio buttons, and a '* Client Postcode' field with a 'Get Quote' button. An 'Overriding Annuity Income' section at the bottom of each panel has an unchecked 'Override indicative annuity quote' checkbox.
