

# Income Analysis - Joint Life - Advanced Options

Last Modified on 01/10/2024 1:20 pm BST

Advanced Options function the same for both single and joint clients.

When doing joint research, you will be able to tweak details of both clients, including all details of the income analysis scenario.

The screenshot displays the 'Income Analysis Research' interface. The 'Illustration Settings & Income' section is active, showing 'Client Details - Susanna West' with a 'Forecast Life Expectancy' of 83 and 'Liable to Scottish Tax Rules?' set to 'No'. The 'Income Value' chart shows income components over time, and the 'Income Requirements' section shows an annual income amount of £54,000.00. The 'Investment Required to get desired income' is £0.00 gross, the 'Maximum Level Income' is £65,034.00 per annum net, and the 'Indicative Annuity Income' is £27,710.28 gross per annum.

The screenshot displays the 'Income Analysis Research' interface. The 'Charges' and 'Plans' sections are visible. The 'State Pension - Susanna West' section is highlighted with a red box, showing 'Include State Pension in the Calculation' set to 'Yes'. The 'Annuity' section is also highlighted with a red box, showing an 'Indicative Annuity Income Quote' of £25,969.56 per annum gross. The 'Fund Value' chart shows fund components over time. The 'Investment Required to get desired income' is £0.00 gross, the 'Maximum Level Income' is £65,034.00 per annum net, and the 'Indicative Annuity Income' is £27,710.28 gross per annum.
